Software Engineer | Nairobi, Kenya

SKILLS

Languages: TypeScript, Javascript, Python

Frontend: React, Next.js, Tailwind CSS

Databases: PostgreSQL, SQL

Soft Skills: Communication, Leadership, Team work

Backend: Node.js, Express, NestJs

Tools: Github, Docker, Azure, Linux

EXPERIENCE

Transcom Media Ltd Software Engineering Attaché

May 2026 - Jul 2026

Built and deployed a secure Financial Services Platform using PHP, MySQL, and CodeIgniter. Conducted requirement analysis, UAT, and technical documentation on Linux/Git environments.

Teach2Give software Engineering Attaché

May 2025 - Jul 2025

Completed 12-week full-stack program in React and NestJS; managed CI/CD with Docker, Git, and Azure DevOps while collaborating on cross-functional team projects.

Godan Info Frontend Intern

Jan 2025 - Apr 2025

Built a user dashboard with React.js and NestJS, featuring role-based access control that reduced approval times by 40% and improved overall engagement by 25%.

PROJECTS

[Computer Society Of Kirinyaga Student Platform](#)

Sep 2025 - Now

Developed frontend features (quizzes, mailing) for a community platform using React, NestJS, and Docker, increasing active users by 40% while maintaining 99% uptime.

[AI Powered Medical System](#)

Jun 2024 - Aug 2024

Architected a medical platform using React, NestJS, PostgreSQL, and Google Gemini AI for automated scheduling, patient records, and medical insights to streamline workflows.

[Automated Spending Journal](#)

July 2026 - Now

Built a mobile application using React Native and Android-specific APIs that automatically reads M-Pesa SMS messages and categorizes transactions for automated expense tracking.

COMMUNITY

Web development Mentor

Sep 2024 - Now

Mentored students in web development and organized tech events to guide career growth and cultivate collaboration and technical skill development.

EDUCATION

Bachelor's of Science in Software Engineering

Kirinyaga University

Specialization: Web Development, Mobile Development, Machine Learning

Related Coursework: Data Structures and algorithms, Client & Server Side Programming, Object Oriented Programming, Statistics and Discrete Mathematics, Linear Algebra and Calculus, Machine Learning, Database programming
